15 → 30  
November  
2021

## How to join the European Days of Local Solidarity?

### The campaign

Cities and regions are leading the way towards global sustainable development! How? Thanks to their **international cooperation projects with cities and regions across the planet** and their day-to-day solution-oriented management of the challenges related to sustainability.

The European Days of Local Solidarity (EDLS) call European cities and regions to **raise their citizens' awareness on the challenges of global sustainable development and on the need to take action.**

**Don't miss the next edition, taking place from 15 to 30 November 2021 across Europe.**

### Key messages

**European cities and regions strengthen citizens' knowledge on global sustainable development issues.**

#### ACTION!

Organise or promote public events aimed to **inform and discuss about the challenges of global sustainable development** and the importance of solidarity **underlining the city's experience in international cooperation projects.**

**European cities and regions support and promote development education and active citizenship initiatives with great local impact.**

#### ACTION!

Collaborate with local Civil Society Organisations (CSOs), groups of citizens or educational centres to **organise and support awareness campaigns, public events or training initiatives** that strongly contribute to citizens' active commitment and sense of solidarity.

**European cities and regions promote political engagement at the national, European and global scale in favour of sustainable development.**

#### ACTION!

Foster the dialogue between mayors and local representatives across Europe, and promote the exchanges with national and global decision makers on **the positive impacts of solidarity and "decentralised" cooperation** in local and global sustainable development.

## Make your city or region part of the initiative!

Plan your EDLS activity between 15 and 30 November 2021.

### An EDLS activity is:

- (Co-)organised by a European town or region, or by an association of local and regional governments
- An opportunity for citizens, local or regional elected or officials, CSOs and other local players to learn, exchange, discuss and celebrate
- Focused on European cities and regions' contribution to global sustainable development, with particular attention to their international cooperation and city-to-city partnerships

### In 2020...

more than  
**70**  
European  
municipalities, regions  
and provinces

organised  
**60**  
events over  
**2**  
weeks

with more than  
**20**  
local elected officials  
and Members of  
Parliaments

## Join the campaign!

- **Use the EDLS campaign toolkit** or add the EDLS logo to your own material to boost your initiative and strengthen its key messages. It will also be promoted through the EDLS website ([localsolidaritydays.eu](http://localsolidaritydays.eu)) and the Twitter campaign ([#localsolidaritydays](https://twitter.com/localsolidaritydays)).
- **Sign the EDLS Charter to formalize your city's engagement** with the common values of democracy, solidarity, co-responsibility and partnership. The support of your European counterparts can also enhance further political and social recognition of your city's engagement for global sustainable development.
- **Become part of a community of European cities and regions** that exchange, learn and discuss on a regular basis about awareness raising tools, development education and sustainable development from a local perspective.

*The EDLS are organised by PLATFORMA, the pan-European coalition of town and regions and their associations involved in town-to-town and region-to-region development cooperation. This initiative is developed under the Framework Partnership Agreement signed between CEMR-PLATFORMA and the European Commission. It is co-financed by the European Union.*
